## "Gulf Canada's northern navy makes jobs by the thousands from Victoria to Lachine"

Manager, Regulart Sea Drilling System Gulf Canada Resources Inc.

Ninety-eight cents of every dollar taken in by Gulf Canada is ploughed back into running our business in Canada. And this spending creates jobs. An excellent example: We will spend \$320 million in Canada to build ships, supply bases, and to buy other materials for the Beaufort Sea Drilling System.

Shinyards in Victoria and Vancouver are busy working on three vessels to be used by Gulf in the Beaufort Sea. Construction of the superstructure for one of the chilling platforms is making hundreds of jobs in Lachine. When Gulf Canada has the ready money to invest, Canadian pocketbooks benefit from coast to coast.
